

Coastline Community College

Military Spouses Program

Associate in Arts (AA) – Major in Sociology

DEGREE OBJECTIVE—Sociology is the study of social life and focuses on the interaction between human groups and institutions and their influences on each other. Sociology ranges from the study of relationships in family units in the most primitive cultures, to the research of large bureaucratic institutions in major industrialized nations. Sociology also studies more tangible measures of human behavior, such as class or social status, social movements, and criminal deviance.
